

Custom Colored Beats Pill+

Want to have the coolest bluetooth speaker to listen to your favorite podcasts, like the weekly ZimmCast on AgWired? Of course you can listen to music too!

Since the new Beats Pill+ comes in only white or black, take the opportunity to show off your personality with an elite custom paint finish by ColorWare. Customize the newly refined Beats Pill+ with your favorite colors.

Bid on this item and the winner will pick their colors for front and back and ZimmComm will place the order and have it delivered direct to you.

The speaker produces a brilliant shot of bass and a clear, full sound. You can pair the Beats Pill+ by Dr. Dre with your iPhone, MacBook or any other Bluetooth-enabled device and listen to your favorite tunes or podcasts.

- **Portable stereo speaker with Bluetooth connection**
- **Pair the speaker with an iPhone, MacBook or any other Bluetooth-enabled device**
- **Power adapter and lightning cable included**
- **12-hour battery life; battery charges in 3 hours**
- **Wireless range up to 30ft (10m)**
